

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. STATISTICAL ABSTRACT

OF THE

UNITED STATES.

1895.

EIGHTEENTH NUMBER.

Finance, Mining, Commerce, Immigration, Tonnage,
the Postal Service, Public Lands, Population,
Education, Railroads, Agriculture,
and Manufacture.

PREPARED BY THE BUREAU OF STATISTICS UNDER THE DIRECTION
OF THE SECRETARY OF THE TREASURY.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1896.

A20922

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., December 3, 1895.

SIR: I herewith transmit to the House of Representatives the eighteenth number of the Statistical Abstract, prepared by the Chief of the Bureau of Statistics.

Respectfully, yours,

J. G. CARLISLE, *Secretary.*

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

TREASURY DEPARTMENT,
BUREAU OF STATISTICS,
Washington, D. C., December 2, 1895.

SIR: I have the honor to submit to you for transmission to Congress the eighteenth issue of the Statistical Abstract of the United States. While retaining the essential features of the earlier issues, I have extended its scope in many important details, as resulting in a more complete compilation and a better arrangement of subjects treated. The field to be covered is so wide and the material available so imperfect that a single publication of this kind can cover only a small part of what would naturally find place in a full statistical abstract. With an increasing public interest in statistical reports new subjects of investigation will be undertaken and an effort made to make this annual issue an epitome of what is generally useful in finance, commerce, and industry. I would respectfully renew my recommendation that a small charge be made for this volume, merely covering the cost of printing. The demand for it made upon Congress and this Bureau has become so large that the edition provided is quite insufficient. It is impossible, under a free distribution, to make a just discrimination among applicants for copies, and a small charge would insure the placing of the edition in the hands of those who have an actual need for it. Such a system could work no injury to anyone, and it would relieve the Bureau of the delicate task of passing upon the claims of individuals to receive the book.

Respectfully, yours,

WORTHINGTON C. FORD,
Chief of Bureau.

Hon. J. G. CARLISLE,
Secretary of the Treasury.

NOTE 1.—The population is for June 1, for 1870, 1880, and 1890 from the census, and for other years estimates, for the same date each year, of the actuary of the Treasury Department.

NOTE 2.—The figures for July 1, 1879, were made up assuming pending funding operations to have been completed.

NOTE 3.—The column of "Debt bearing no interest" includes certificates issued against gold, silver, and currency deposited in the Treasury.

NOTE 4.—The temporary loan per act of July 11, 1862, is included in the 4 percents from 1862 to 1868, inclusive, with the exception of the amount outstanding, August 31, 1865, this being the date at which the public debt reached its highest point. This loan bore interest from 4 per cent to 6 per cent, and was redeemable on ten days' notice after thirty days; but being constantly changing, it has been considered more equitable to include the whole amount outstanding as bearing 4 per cent interest on an average for the year.

a The cost of collecting the internal revenue embraces the following items: Salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine; salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses; paper for internal-revenue stamps, and expenses of detecting and punishing violations of internal-revenue laws.

b The expenses of collecting the revenue from customs includes all sums drawn from the appropriation made by Congress for that purpose. The money is expended for salaries, rents, labor in weighing, gauging, and measuring imported merchandise, revenue boatmen, repairs, and other expenses incident to rented buildings, stationery, and the traveling expenses of special agents, but does not include expenditures for revenue cutters, fuel, lights, water, furniture, janitors, etc., for buildings owned by the Government, nor expenditures for erecting new buildings, all of which are paid for from specific appropriations made for those purposes.

The expenses of collecting internal and customs revenue do not include the expenditures for salaries, etc., incident to auditing these accounts in the Departments at Washington.

b Product less exports.

a Since 1886 includes domestic spirits exported and returned.

NOTES.—(1) The production of domestic wines from 1875 to 1892 was estimated by the Department of Agriculture, by Mr. Charles McK. Leoser, president of the Wine and Spirit Traders' Society of New York, and other well-informed persons, and the production for 1889 (opposite the year 1890) is that officially reported by the United States Census. (2) The consumption of domestic spirituous and malt liquors was obtained from reports of the Commissioner of Internal Revenue. (3) The consumption of imported liquors and wines was taken from records of the Bureau of Statistics.

NOTE.—Receipts at New York, Portland, Boston, Philadelphia, and Baltimore include shipments from the West to foreign countries through these ports on through bills of lading. Receipts at Portland via Montreal are duplications of receipts reported at Montreal. Receipts at Baltimore include flour ground by city millers, and, therefore, duplicate an equivalent quantity of wheat received in grain. Receipts at New Orleans do not include shipments of oats and corn through that port to foreign countries on through bills of lading.

Grain embraces flour as wheat, wheat, corn, rye, oats, barley, malt, and pease.

NOTE 1.—\$968,153.86 was paid as bounty from July 1, 1894, to August 28, 1894, when the bounty law was repealed. The sugar covered by these payments was produced in the fiscal years ended June 30, 1893, and June 30, 1894.

NOTE 2.—It will be observed that bounty payments by fiscal years do not correspond to the sugar produced each fiscal year, for the reason that the payments on one year's product have, to a large extent, been made in a subsequent year.

a "Long" tons, 2,240 avoirdupois pounds; short tons, 2,000 avoirdupois pounds.
 b Iron ore 1892: 16,296,660; value at mines, \$33,204,896. Iron ore 1893: 11,587,629;
 value at mines, \$19,265,973. Iron ore 1894: 11,879,679 long tons; value at mines,
 \$13,577,325.
 c \$1.2929 per troy ounce.
 d \$20.6716 per troy ounce.
 e Including copper made from imported pyrites.
 f The product from domestic ores only.
 g The lead from foreign ores, amounting to 64,273 tons in 1893, and 59,759 tons in
 1894, is omitted.
 h At 10¢ per avoirdupois pound net.
 i The total product of bauxite, including that used for making alum, was 11,037
 long tons; worth, \$33,111.
 j Including aluminum alloys.
 k Including nickel in copper-nickel alloy, and in exported ore and matte.
 l By "spot" value is meant value at the point of production.
 m Including brown coal and lignite, and anthracite mined elsewhere than in Penn-
 sylvania.
 n Of 42 gallons.
 o Estimated from census returns. Value of clay products in 1894, \$45,389,781.
 p Of 300 pounds for natural cement, and 400 pounds for artificial Portland
 q Of 280 pounds net. The reduced price in 1893 is due to omitting cost of packages.
 r Including metallic paints, ochre, amber, venetian red, sienna, ground soapstone,
 ground slate, and mineral black.
 s Value of the crude product.

^a Includes New York elevated railroads.

NOTE.—The statistics of mileage, capitalization, debt, and liabilities given in the above statement are for all the steam railroad companies in the United States (including the elevated steam passenger railways in the State of New York) at the close of each fiscal year in the period covered. The statistics of gross and net traffic earnings, interest and dividend payments, passenger and freight traffic relate only to those in full operation which make complete returns. In 1894 such lines covered 98.5 per cent of all the railroads in the country. The mileage and capital accounts of the elevated passenger railways in New York are included above, but the number of passengers carried over these lines can not be included in the total of the steam railroad system proper because of dissimilarity of this traffic to the traffic of the surface steam roads and its disproportion to earnings. For this reason the earnings of the lines are classed among miscellaneous income.

The greatly increased mileage since 1880 is principally due to the fact that in 1881 the Western Union Telegraph Company absorbed by purchase all the lines of the American Union and the Atlantic and Pacific Telegraph companies, the former having previously in operation over 12,000 miles of line and the latter 8,706 miles. Capital stock of the Western Union, \$100,000,000.

The Western Union has exclusive contracts with several international cable companies, operating eight Atlantic cables, and guarantees 5 per cent annual dividends on the stock of the American Telegraph and Cable Company; amount, \$14,000,000.

Besides the above, there are new lines of telegraph which have complied with the United States telegraph act of 1866, and are operating wires with or without connection with railway companies.

The New York Mutual Telegraph Company, established in 1881, has about 8,000 miles of line, 60,000 miles of wire, 1,200 offices, and has extended its lines north and south, operating from Boston to Chicago, St. Louis, Washington, etc. Capital stock, \$2,500,000. This line is now leased and operated by the Western Union Telegraph Company, at a rental of 6 per cent per annum on the stock.

The Baltimore and Ohio Railroad Telegraph, having lines coextensive with its railway system and branches, besides many newly extended wires south and west,

constituting 6,711 miles of line and 54,087 miles of wire, was purchased in 1887 for \$5,000,000 by the Western Union Company, which now owns and operates it.

The lines of the American Rapid Telegraph Company, comprising 2,684 miles of poles and 20,370 miles of wire, and extending from Boston to New York, Washington, and Chicago, have been purchased by the Western Union Telegraph Company for \$550,000 in its stock at par. These lines have been operated by the Western Union Company under a lease since July 10, 1885, as a part of its system.

The Northwestern Telegraph Company owns 8,000 miles of wire. It is leased to the Western Union for ninety-nine years, which guarantees dividends (6 per cent after 1896) and interest on bonds.

The aggregate mileage of telegraph lines in the United States open for public business exceeds 210,000 miles, besides railways, Government, private, and telephonic lines; length not ascertainable.

No. 107.—PASSENGERS DEPARTED FROM SEAPORTS OF THE UNITED STATES FOR FOREIGN COUNTRIES OTHER THAN BRITISH NORTH AMERICA FROM 1875 TO 1895.

NOTE.—In the absence of law requiring masters of vessels departing from the United States for foreign countries to deliver to collectors of customs returns of the passengers embarking on such vessels, reliance is had upon the courtesy of the agents of steamship and packet lines for information on the outward passenger movement. The following tabular statistics relate only to the departure from seaports, and comprise only the data secured in the manner above indicated, but it is probable that the departures given embrace nearly the entire passenger movement from the United States to foreign countries from our seaports.]

NOTE BY MESSRS. MAUGER & AVERY.—This table exhibits, in a concise form, the prices of the three grades of a standard domestic fleece wool in the seaboard markets at the beginning of each quarter. In its present shape it is deemed to be intelligible to all interested in wool. In the special features of character and condition, "Washed Ohio Fleece Wool" is less subject to variation than any other description, and thus is more a basis of value than any other class. Wool, owing to its wide variety, difference in character and condition, and liability to shrink in cleaning, is precluded from speculative operations which apply to products which may be dealt in as "futures." For these reasons the prices of wool are not liable to the same changes as cotton, wheat, etc.
